# Analyzing & Visualizing WeRateDogs Dataset

INTRODUCTION

WeRateDogs is a Twitter account that rates people's dogs with a humorous comment about the dog. These ratings almost always have a denominator of 10. The numerators, though? Almost always greater than 10. 11/10, 12/10, 13/10, etc. Why? Because "**they're good dogs Brent**." If you didn't hear before about this meme I highly encourage you so check it **here**.

WeRateDogs has over 8 million followers and has received international media coverage.
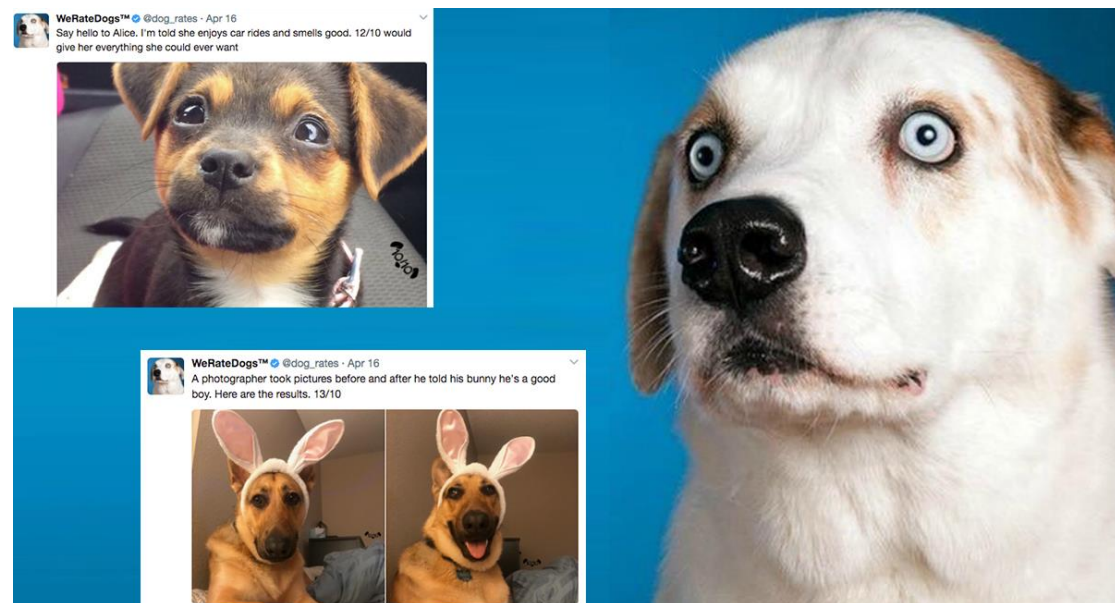

So, which breed is the most common in the tweets dataset? What dog type is the most beloved one? These questions and more are answered in the following insights and visualizations.

# 1 NUMBER OF OCCURRENCES FOR EACH DOG STAGE IN THE DATASET
